Cost	30 EUR		

This e-learning program provides an introduction to behavior-based safety. It is designed primarily for supervisors and team leaders but may be useful for anyone that requires an overview of the concepts involved. Behavior-based safety is about identifying management policies and practices that influence workforce behaviour. This program will help you to understand behaviour-based safety and introduce techniques that you can use when carrying out your day-to-day duties and responsibilities.

This e-learning course is suitable for self paced learning, distance learning and blended learning. This is an online training course and uses high quality multimedia with audio to fully engage the user.
