Microsoft Windows is a powerful and intuitive operating system. With Windows you can quickly define user settings, navigate between programs, add and remove software, organize files and folders, and easily connect to your company's intranet, among other things. This course on Microsoft Windows will help you get familiar with this common operating system that's used for your desktop operations.

This e-learning course is suitable for self paced learning, distance learning and blended learning. This is an online training course and uses high quality multimedia with audio to fully engage the user.
